RE: FY13 Biodiesel Fuel Revolving Fund Expenditures Report

The Seventy-ninth General Assembly of the State of Iowa, 2001 Regular Session, passed Senate File 465 which was signed by the Governor on April 19, 2001 (Iowa Code section 307.20). This act created the biodiesel fuel revolving fund (Fund) to be used to purchase biodiesel fuel for use in the Department of Transportation's (DOT) vehicles.

The act directed that the Fund receive money from the sale of E Pact credits banked by the DOT on the effective date of the act, moneys appropriated by the General Assembly, and any other moneys obtained or accepted by the DOT for deposit in the Fund. The act also directed the DOT to submit an annual report not later than January 31 of the expenditures made from the Fund during the preceding fiscal year. This is the twelfth annual report under the act.

- ❖ In FY 2013, the DOT was unable to sell any E Pact credits. The balance in the Fund was \$89,336.65 as of June 30, 2013.
- ❖ In FY 2013, the DOT purchased 64,643 gallons of B99.9/B100 for a total of \$290,364 for an average price of \$4.49 per gallon. The B99.9/B100 was blended with diesel fuel to make biodiesel fuel.
